

i love my xm it is the greatest thing next to tv i live in my car i travel a lot and i dont have time to stop at every truck stop or listen to a regular radio station to hear the weather evey 20 to 30 min
i like the fact that i can hear what i am going to drive into down the road
i also love sporting events the nascar channel has got to be the best channel on there for me

thank you so much xm
